SUMMARY

Aspiring Software Developer and a fresh graduate with hands-on experience in web development, system analysis, UI/UX design, and database management through academic and project-based work. Proficient in HTML, CSS, JavaScript, PHP, Java, Python, and MySQL, with a strong foundation in building user-centered applications and solving real-world problems through technology.

TECHNICAL SKILLS

- Web Development: HTML, CSS, JavaScript, PHP
 - Other Programming Languages: Java, C++, C, Python
 - Frameworks & Libraries: Bootstrap
 - Database Management: MySQL
 - UI/UX Basics: Figma, Canva, Adobe Photoshop
 - Development Tools: Git, GitHub, Visual Studio
 - Productivity Tools: Microsoft Office (Word, Excel, PowerPoint)
-

PROJECTS

San Antonio e-Desk: A Web-Based Document Request and Community Reporting System

Capstone Project

- Developed a web-based e-governance platform that digitized document requests, community reporting, and public announcements for Barangay San Antonio.
- Analyzed manual barangay workflows and translated operational requirements into functional system features, user workflows, and process improvements.
- Designed and implemented a centralized system with document request management, complaint reporting, and administrative dashboard functionalities while applying user-centered design and software quality standards.

FursAID – Real-Time AI Emergency Assistant for Fur Parents

Mini Hackathon Project

- Conceptualized an AI-powered emergency assistance platform designed to help pet owners respond to urgent pet health situations through real-time guidance and decision support.
- Conducted requirements analysis and feature planning to identify key challenges in pet emergency response and healthcare accessibility.
- Designed high-fidelity UI/UX prototypes and user workflows to demonstrate core functionalities, including emergency assistance, symptom assessment, and veterinary service integration.

ServeIT: Digital Services and Products provided with ease

School Project

- Developed a web-based platform for managing and purchasing digital products and services, utilizing PHP, MySQL, Bootstrap, HTML, CSS, and JavaScript to deliver a responsive and user-friendly experience.
 - Implemented core functionalities including user authentication, account management, category-based product browsing, secure purchasing workflows, feedback submission, and support communication features.
 - Designed and developed an administrative dashboard with role-based access control for managing digital products, monitoring user activity, maintaining system data, and supporting overall platform operations.
-

EXPERIENCE

City Government of Sto. Tomas Batangas

February - May 2026

IT Support Intern

- Provided technical support by diagnosing and resolving hardware, software, network, and printer-related issues across multiple government offices, minimizing operational disruptions.
- Installed, configured, and maintained desktop computers, laptops, printers, office peripherals, Microsoft Office applications, and essential software to ensure reliable day-to-day operations.
- Conducted IT asset inventory, equipment documentation, and resource tracking to support effective technology management and organizational efficiency.

EDUCATION

Polytechnic University of the Philippines Sto. Tomas Campus

2022 - 2026

Bachelor of Science in Information Technology

CERTIFICATIONS & TRAININGS

- Seminar: Ctrl+Alt+Lead: Project Management for the IT Generation - June 2026
- Salesforce Certified Associate - 2025
- Seminar: From Algorithms to Intelligence: Your Journey into Artificial Intelligence and Machine Learning – 2025
- Seminar: Tech Quest: Decoding the Matrix of Software Development – April 2025
- Seminar: Tech Nexus 2024: Empowering Campus Innovators
- Seminar: Campus DEVCON Summit 2024Tech Nexus
- Seminar: AI: The New Power Tool of Every IT Professional - May 2025
- Seminar: Technology Business Incubation (TBI) Awareness – 2024
- Webinar: General Assembly (Career Transition & IT Leadership) – Dec 2023
- Seminar: General Assembly (Mobile Dev & Cruise Industry) – Mar 2023
